

## PAPER LANDSCAPES

By **Desdemona McCannon** (Principal Lecturer in Illustration, University of Worcester, UK)

**13:00-15:00 Thursday 13th October 2022 @ Open Innovation, KU Minatomirai Campus 1F**

In this workshop you will join illustrator Desdemona McCannon to create a playful collaborative landscape made of paper.

First you will create a story map, a sketch map of a story you know well. This will focus on the spaces that the story takes place in rather than the sequence of events.

Then you will be shown how to use white paper and scissors to create simple free standing paper models to populate the paper landscape. Your models may take your storymap as a starting point, or you may create spontaneous characters and props!

We will then photograph the models and experiment with narrative scenarios.

**Materials:** Please bring your own scissors (small sharp scissors are better than large blunt ones).

**Language:** English (anyone with basic English skills can join)

**Maximum number of participants:** 20 (first come, first served)

If you would like to participate, please email Mayako Murai (murai[a]kanagawa-u.ac.jp) by 11th October.
